On the hot days, Mmm hmm mhmm

F C
And your beach waves

F G
On a summer night

C F C F C
We were lovers, technicolor
F C F G
That whole summer, 'til we got way too hot

F C G F
Oh! Candy apple red, you left me here for dead
C G

And drove away with my heart in your hands

F
And now it's me

C
Seafoam color dream

F
Nothing's what it seems

C G F
But I will always live in color, though it's over now
