

**Heart That's Pounding** by Sally Seltmann

F                      Bbm                      C  
Trouble in sight, I am not like all the other girls

F  
That you saw last night

Bbm  
Louder when I said it before

C                      F  
You can save my life if you give me more

Bbm  
I had a shot at what I thought  
C                      F  
Was the best day of my life, now it's gonna end

Bbm  
Yellow and blue, the target was see through  
C                      F  
Fortune tellers said, I told you

Bbm  
I want to see a heart that's pounding  
C                      F  
I want to hear a beat that's sounding  
Bbm  
Bigger than the leap that's bounding  
C                      F  
I was lost but now you found me

Bbm  
There is a world to fix, a tape to mix  
C                      F  
A mind to mend, a soul to bend, start to end  
Bbm  
Fish to feed, a hope to need  
C                      F  
A girl to be a boy to see I'm loving nothing

Bbm

I want to see a heart that's pounding

C F

I want to hear a beat that's sounding

Bbm

Bigger than the leap that's bounding

C F

I was lost but now you found me

Dm

What's the use of loving

Am

If you're not loving like

Bbm

You think you're gonna die

F

If you don't see a loved one

Dm F

Without you for just ten days

Bbm C

Well, I feel like I'm gonna die

Dm Am Bbm

While I lie in bed at night

F Dm

I can feel my heart inside

There's no way I can hide this desperation
