

Party Of One chords by Brandi Carlile

F Am F C

Am G F

Waiter send this to the table, the party of one

Am G F

The only other lonely soul in this place

Am G

And so you're finishing up your coffee

F

But then where are you gonna run?

Am G F

Where'd you get that look-on-your-face?

Am G F

You should always let the sun go down on your anger

Am G F

Let it burn you to sleep

Am G F

And bring you closer to danger to surrender and retreat

G Am G F

Sing your sad soul to sleep

G C

I loved you the first time I saw you

F G C

And you know I love you still

Dm

But I am tired

G

And I am yours

Am G F

Don't even think about your freedom or taking that flight

Am G F

Or going back upon your promise after fighting for the right

Am G F C

Because your eggshells and your right statements and your weaponized words

Dm G

Are paper tigers now

Am G F

Oh your constant overthinking and your secretive drinking

G Am G F

Are making you more and more alone

Am G  
And girl, you can slam the door behind you
